

Infinite Comforts

Getting the most from your new blanket

- For warm weather (or if you run hot at night), start with the weighted blanket without the cover.
- For cold weather (or if you run cool at night), insert the weighted blanket into the duvet cover to maximize warmth.
- When using both items together, tie the weighted blanket to the duvet's 8 inner loops to prevent bunching.
- The 8 ties are found in the 4 corners and the center of the top, left, right, and bottom edges on both blankets.
